

## AND THE RAIN CAME DOWN (Chuck Girard)

**Em**  
And the rain came down  
And it fell upon the ground  
**C**  
And reminded me of all the words You said  
**Am** **Em**  
Yes the rain came down, yes the rain came down  
**C7**  
And the truth came down around me  
**B7** **Em**  
Like the sky was rainin' lead

**G**  
Woke up this mornin' to the sound of fallin' rain  
So many awful messages were rollin' 'round my brain  
**F**  
I looked out my window and the sky was dark as night  
**Am**  
Is it too late to change my ways and try and see the light  
**Em**  
I looked out to the left of me the water risin' high  
**C7**  
And in the flash of lightnin' that was lightin' up the sky  
**Am**  
I saw my neighbors wadin' through the water in the dark  
**C7** **B7**  
I know where they were goin' they were headin' for the ark

### CHORUS

**G**  
I caught them in a moment there was panic on my face  
Others joined our group and made it clear this was a race  
**F**  
We had to try and find the ark and hope heōd let us in  
**Am**  
He who'd often warned us of the wages of our sin  
**C**  
We moved along in silence though our hearts were cryin' out  
**Em**  
Noah was no fool there was no longer any doubt  
**C**  
We rolled around the bend to where the ark had always stayed  
**B7**  
Our tears turned into wailing as we watched it sail away

**CHORUS**

**G**

Woke up this mornin' when I heard a siren scream

The sound of morning traffic pulled me from my awful dream

**F**

My body bathed in sweat that matched the rain that fell  
outside

**Am**

I realized my time had come I could no longer hide

**C**

All the early lessons I had learned at Sunday school

**Em**

Slashed me to the heart and made me see I'd been a fool

**C**

I realized that all these years my eyes had been so blind

**B7**

I grabbed the telephone...and got my preacher on the line.

**Em**
