

**CHILD COME HOME**

(Chuck Girard)

**E6sus4**

How it hurts Me to watch you  
How it hurts Me to see  
How you go on your own way  
How you think you are free

**E7sus4**

But you're only a shadow  
Of what you someday will be  
When you wind down your mainspring

**E6sus4**

And turn your eyes back on Me

**E6sus4**

Though I know that day will be comin'  
In the meantime it grieves  
To see you wastin' your moments  
Moments you'll never retrieve

**E7sus4**

Walkin' solo down the sidestreets  
Reachin' out for fantasies  
Tryin' to conquer all your loneliness

**E6sus4**

By givin' in to the disease

**D**

Child come home

Child come home...

Child come home

**A**

Child come home...
